Usability

D+

Your usability could be better

Your page is OK but could be more usable across devices. Usability is important to maximize your available audience and minimize user bounce rates (which can indirectly a ect your search engine rankings).

Device Rendering

i

This check visually demonstrates how your page renders on different devices. It is important that your page is optimized for mobile and tablet experiences as today the majority of web traffic comes from these sources.
Google's Core Web Vitals

i

Google is indicating that they do not have 'sufficient real-world speed data for this page' in order to make a Core Web Vitals assessment. This can occur for smaller websites or those that are not crawl-able by Google.

Use of Mobile Viewports

✔

Your page specifies a viewport matching the device's size, allowing it to render appropriately across devices.

Google's PageSpeed Insights - Mobile

✘

Google is indicating that your page is scoring poorly on their Mobile PageSpeed Insights evaluation.

Note that this evaluation is being performed from US servers and the results may differ slightly from an evaluation carried out from Google's PageSpeed Web Interface as that reporting localizes to the region in which you are running the report.

Google has indicated that the performance of a webpage is becoming more important from a user and subsequently ranking perspective.

Your page has specified a favicon. ✓

Email Privacy ✗

Email addresses have been found in plain text.

We recommend removing any plain text email addresses and replacing them with images or contact forms. Plain text email addresses can be susceptible to scrapers and email spammers.

Legible Font Sizes ✗

There is some text on your page that is small and may not be legible enough for particular users.

We recommend reviewing all text on your page in different devices to ensure that it is of appropriate size.

Tap Target Sizing ✓

The links and buttons on your page appear to be appropriately sized for a user to easily tap on a touchscreen.

Performance Results

F

Your performance needs improvement

Your page's performance has various issues that may be adversely affecting users. Performance is important to ensure a good user experience, and reduced bounce rates (which can also indirectly affect your search engine rankings). We recommend addressing the highlighted factors below.

Page Speed Info ✗

Your page loads slowly.

Page load speed is critical to ensuring good user experience and is becoming a more important ranking factor. Load speed can be impacted by a multitude of factors however and may need technical resources to investigate.
Server Response	All Page Content Loaded	All Page Scripts Complete
3.0s	7.3s	13.6s
Download Page Size ✗

Your page's file size is quite large which, regardless of other optimizations, can reduce load speed and impact user experience.
A general rule is to keep your page under 5MB in total file size.

Google Accelerated Mobile Pages (AMP)   *i*

This page does not appear to have AMP Enabled.

JavaScript Errors   ✗

Your page is reporting JavaScript errors during load.

This could indicate that some required functionality on your page is failing or scripts may have coding problems.

HTTP2 Usage   ✓

Your website is using the recommended HTTP/2+ protocol.

Optimize Images ✔

All of the images on your page appear to be optimized.

Minification ✘

Some of your JavaScript or CSS files do not appear to be minified.

Minification is a reasonably simple way to reduce page size, and subsequently load time.

Deprecated HTML ✔

No deprecated HTML tags have been found within your page.

Inline Styles ✘

Your page appears to be using inline styles.

Inline styles are an older coding practice and discouraged in favor of using CSS style sheets, due to their ability to degrade page load performance and unnecessarily complicate HTML Code.

Social Results

D

Your social could be better

You do not appear to have a strong social presence or level of social activity (or we may just not be able to see your profiles!). Social activity is important for customer communication, brand awareness and as a marketing channel to bring more visitors to your website. We recommend that you have all of your profiles listed on your page for visibility, and work to build a following on those networks.
